

CURRICULUM VITAE

Xavier PINOCHET

Born the 19th march 1959 at Paris, married 3 children

Professional address:

Terres Inovia (ex-CETIOM) Centre de Grignon, 1 avenue Lucien Bretignières, 78850 THIVERVAL-GRIGNON

Tél: 33 (0)1 30 79 95 60, Fax: 01 30 79 95 90, e mail: x.pinochet@terresinovia.fr, smartphone: 33 (0)6 03 26 21 42

Educational and professional qualities

1981: Engineer in Agriculture, specialty Agronomy, from ENITA Dijon (today AGROSUP DIJON)

1982: MASTER in microbial ecology .LYON I University

1992: PHD in Microbial ecology LYON I University

35 years' experience in soil microbiology and plant pathology

25 years' experience in oilseed rape genetics and variety testing

17 years' experience in plant protection, IPM, pest and diseases

Successive positions

1993- today: Centre Technique Interprofessionnel des Oléagineux et du Chanvre (CETIOM) which became TERRES INOVIA

- Since 2012 : Head of MTI Department (méthodes et technologies innovantes);
- 2005-2012: Scientific direction : expert for genetics and crop protection.
- 2001-2005: Scientific direction, Head of Innovations Service
- 2000-2001 : Head of crop protection Unit
- 1993-2000: Head of variety testing and seeds Unit.

1983-1993: Institut National de la Recherche Agronomique (INRA) Plant Pathology Department at Montpellier

Engineer at Laboratoire de Recherches sur les Symbiotes des Racines

- Soil microbial ecology , mainly with Rhizobia
- Field trials, dissemination and training activities
- International cooperations with Thailand (4 years) et Vietnam (7 years)

1983-1984: National Service in Coopération.

Rural Development Ministry of Islamic Republic of MAURITANIA (Nouakchott)

Direction de l'Agriculture, Chargé d'étude, reseach and extension projects leader

End 1982: teaching at Lycée Agricole et Viticole de Beaune.

Publications

- Around 50 scientific papers in International journals
- 8 contributions to collective books,
- 130 communications at scientific conferences and congress (38 oral, 88 posters),
- **Indice H: 14, Indice i10: 19, 920 citations** Google scholar, score **Research Gate: 23.90**
- 86 technical papers in professional journals

Representations and collective responsibilities

- INRA 1984-1993 : management of inoculation field trials and networks : soybean, chickpea, medicago
- Animator of oilseed rape commission of PROMOSOL from 1996 to 2015
- member of the scientific comity of Promosol, (from 1996 to 2013)
- Expert and farmer's representative at CTPS (Comité technique Permanent de la sélection, Ministère de l'agriculture for cultivars registration) since 1993
- Technical and scientific representative for CETIOM and Sofiproteol for Oilseed rape and sunflower in different technical or scientific comities at Biogemma, GIE Colza, FRSO, Genoplante.
- Co Animator of thematic comity « facteurs biotiques » of GIS Biotechnologies vertes (since 2012) with a colleague from CNRS Toulouse
- Animator of UMT on IPM on Grignon Campus from 2006 to 2011 (INRA, AgroParisTech, Arvalis, CETIOM)
- Organizer IOBC meeting on oil crops in Paris in 2008
- Pilot of ISO 9001 process « Knowledge » for CETIOM from 2002 to 2013

- Member of different scientific comities for ECOPHYT since 2012 (CAST DEPHY Farms network, website ECOPHYTOPIC)
- Expert in the European focus group on IPM for Brassica species (2014)
- Expert in the validation comity of CEPP (certificates for plant protection products use reduction) (since 2015)
- President of the scientific comity of the Bourgogne Mustard Association since 2016, after being a member since 2014.
- Member of the scientific comity of ITSAP (Institut technique et scientifique de l'abeille et de la pollinisation) since 2012

Coordination and participations of research projects

- 12 coordinations of national projects.
- 20 participations to others including 8 European projects.
- WP coordinator for several PIA projects (RAPSODYN, SUNRISE, PEAMUST and PHENOME since 2012)

Teaching and trainings

- Supervision of 14 Master students and 4 pHD thesis
- 27 participations at pHD jurys
- 19 participations at pHD comities
- Co-organizer of a 4 weeks « Cours international sur la fixation biologique de l'azote » in 1986, 1988 and 1990 and teaching for microbiology, immunochemistry
- Supervision of 2 months trainings for immunochemistry applied for Rhizobium ecology for foreign colleagues, in 1987.
- Participation at FPSTAT training sessions from 1989 to 1993. INRA Internal training program for data analysis and biometrics.
- 5 to 10 h of teaching each year at Agro Paris Tech and Agro Campus Ouest in the field of oil crops protection, agronomy, durable plant resistant management and Plant Phenotyping.
